

Instructions for Time Zone Changes

Operating System Updates

Microsoft® is providing a time zone patch for the Windows® XP and Windows® 2003 Server operating systems. See the [2007 time zone update for Microsoft Windows operating systems](#) page for information concerning 2007 time zone updates for your Windows operating system. The following URL address is provided as a convenience to our DSI clients:

<http://support.microsoft.com/kb/928388>

Be certain to update your Windows operating system prior to March 11, 2007, which is when daylight saving time begins.

dcLINK® System Updates

There are no time zone issues with this version of the dcLINK® system.
